During the fourth quarter of 2013, the Valuation Committee, which is composed of three independent directors, adjusted the fair values of the private companies in our portfolio. In arriving at these determinations and consistent with the Fund's valuation procedures, and ASC 920 (formerly FAS 157), the Valuation Committee took into account many factors, including the performance of the portfolio companies, recent transactions in the companies' securities, as well as the impact of changes in market multiples within certain sectors.
